Dear Dr. Maxsimov,

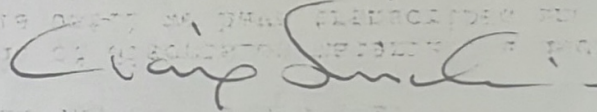

I am enclosing our standard IIASA form seeking your approval for publication of your paper presented at the LEG Task Force Meeting.

We are busy now editing the proceedings and organizing the discussion material. As I announced at the meeting we will, at the minimum, publish the presented papers and for this we would like your signature on the attached. If you have revisions please let us have these within the next few weeks.

As to the use to be made of discussion material, a decision cannot be reached upon this until we have transcribed and examined the contributions. I propose to write to you again with our proposals for the use of this material and you should rest assured that no quotation will be made without reference to you.

We would like, again, to thank you very much indeed for your participation and hope we may have the pleasure of meeting you again some time.

Yours sincerely,

Craig Sinclair
Deputy Chairman
Management and Technology
